## Trap Rental Agreement

While our quality traps are FREE to use, we do require a \$65.00 deposit for each trap. This deposit is returned to you when you return our trap. We do not accept credit cards for trap rentals and prefer cash but checks are accepted as well. **Please print neatly.**

**Please initial each statement after reading:**

\_\_\_\_\_ Traps are to be returned in the same clean condition as when borrowed. They must be free of all skunk smell, cat smell and debris.

\_\_\_\_\_ If the trap is not returned on the agreed upon date as listed below, CAF can use my deposit to purchase another trap. CAF will first make every effort to call me in regards to returning the trap but if they (CAF) does not hear back from me, a new trap will be purchased with my deposit. I may call and extend my trap use time if needed.

\_\_\_\_\_ I will not use this trap to catch cats and take them to animal control to be euthanized. I understand that animal control does not find homes for feral cats and that they are killed or euthanized when taken there.

\_\_\_\_\_ I understand that the trap I borrow from CAF is only to be used for trap, neuter and return of feral cats (TNR program). The cat is not to be trapped and returned to a different location from where I originally trapped the cat. If the cat is put in a different location after surgery, the cat will most likely run off and die.

\_\_\_\_\_ I understand that in order to get a trap from CAF, I must go through their feral cat program and pay for the surgery. This insures that I am using the trap for the purpose the trap was intended (TNR program for feral cats only) and not to catch and relocate wildlife.

Bring this into CAF with your trap deposit. A separate payment is required for the feral cat spay surgery (please call CAF for price quote). **A CAF staff/volunteer is to fill out the following.**
